

# ALRAHJE PAUTE

Systems Developer | Full-Stack Engineer

## OBJECTIVES

Registered Electronics Engineer focused on software and systems development, with practical experience building and deploying production-ready applications, including inventory and sales tracking systems, an Android POS application, and a document tracking system.

## SELECTED PROJECTS

### MINISTRY OF PUBLIC WORKS DOCUMENT TRACKER SYSTEM

PHP, MySQL, HTML, CSS, Javascript (2026)

- Designed, developed, and deployed a centralized Document Tracker System to manage document routing, status monitoring, and lifecycle tracking. Implemented features for real-time updates, audit trails, user access control, and reporting. Handled full system architecture, database design, UI/UX, deployment, and ongoing maintenance as a solo developer.

### ANDROID POINT-OF-SALE APPLICATION

Kotlin, Android SDK, Room (SQLite) (2026)

- Developed and deployed an offline-capable Android Point-of-Sale (POS) application with cart management, checkout processing, local transaction storage via Room (SQLite), and incremental invoice tracking, currently used by retail shops.

### INVENTORY AND SALES TRACKER WEB APPLICATION

Flask, Python, PostgreSQL, HTML, CSS, JS (2025)

- Developed and deployed a production-ready Inventory and Sales Tracker web application with authentication, sales monitoring, automated reporting, and a PostgreSQL-backed database.

## EXPERIENCE

### ENGINEER I | SYSTEMS DEVELOPER

Ministry of Public Works Regional Office (2025 - Present)

- Designed and deployed a centralized government Document Tracking System while managing system architecture, deployment, security, automation, and technical support for the Ministry of Public Works.

### TECHNICAL PROGRAMMER | SYSTEMS INSTALLER

Converge IT Solutions, INC. (2023)

- Programmed, configured, and troubleshoot integrated hardware-software systems, including automation, networking, and CCTV deployments.

## CERTIFICATIONS

- **Registered Electronics Engineer**, PRC - Philippines
- **Junior IECEP Club Officer**, Institute of Electronics Engineers of the Philippines
- **CS50x: Introduction to Computer Science**, Harvard University (edX)

## CONTACT

0915 464 1841

rajpaute@gmail.com

Indangan, Davao City

## EDUCATION

### BS ELECTRONICS ENGINEERING

University of the Philippines

Diliman 2016-2020

Notre Dame of Marbel University

2022-2024

## SKILLS

### PROGRAMMING

- Python (Flask), PHP
- Kotlin (Android)
- JavaScript

### DATABASE

- PostgreSQL
- SQLite

### WEB AND TOOLS

- HTML, CSS, Bootstrap
- Git
- React, Tailwind CSS
- REST APIs

### SYSTEMS

- Full-stack application design
- Deployment & maintenance
- Hardware-software integration
